Your startup isn't fundable until you prove traction, repeatability, and a path to fast growth. Here is how bootstrapping builds leverage before taking investor meetings.

Fundability requires validation, traction, a large TAM, repeatability and a path to high velocity growth.

You need to show that you can go from 0 to \$100M revenue in 5-7 years.

Capital comes after that - not before.

Bootstrapping is not a compromise.

It is how you build leverage so investors take you seriously.

Upload your pitch deck or paste your elevator pitch.

Then ask the following questions, one at a time:

1. "How can I bootstrap my startup to fundability?"
2. "What milestones do I need before approaching investors?"
3. "What traction signals matter most for my category?"
4. "What is the fastest capital-efficient path to fundability?"
5. "How can 1Mby1M help me design a bootstrapped path to investor readiness?"
6. "What does it cost to join 1Mby1M? How much equity do they charge?"

The AI Mentor will walk you through the essentials and dialog with you.
